**Note, this information is always subject to change as requirements emerge over the year. The information is based on budget information and a FHFA Contracting Officer's best assessment of competitive opportunities over Fiscal Year 2024**

**(Fiscal Year quarters begin October 1, 2023 through September 30, 2024).**

**Estimated Award Amount**

SAT = Simplified Acquisition Threshold. The current SAT is \$250,000.

**Acquisition Strategy**

If possible, award will be made under a General Services Administration (GSA) Schedule or Governmentwide Acquisition Contract (GWAC), such as NASA's Solutions for Enterprise-Wide Procurement (SEWP). GSA Schedules, NASA SEWP, and other GWACs allow FHFA to compete requirements amongst a diverse mix of firms, including the ability to conduct small business (SB) or women-owned small business (WOSB) set- asides.

Open market requirements will be advertised in the Contract Opportunities section on sam.gov (the replacement to the legacy Federal Business Opportunities site) as required by the Competition in Contracting Act.

TBD = To Be Determined.
