Subject: GGolden Parachutes for Fannie and Freddie CEO's

I can't believe that your agency is even considering paying these CEO's a penny!!!

They, each, TOTALLY failed in job performance and, therefore, aren't entitled to another penny.

In fact, they should return most of the money paid over the last couple of years since, during that time, the stock value was (artificially) inflated.

When will the government hold these CEO's accountable for their poor performance?

NOT ONE PENNY!!!!
