Fannie Mae and Freddie Mac HAMP Trial Modifications Increase More Than 40 Percent in September

Washington, DC – Fannie Mae and Freddie Mac’s trial mortgage loan modifications under the Administration’s Home Affordable Modification Program (HAMP) were up more than 40 percent in September 2009 from the previous month. Completed loan modifications are also expected to increase when borrowers successfully complete the trial period and provide required documentation. The data were released by Edward J. DeMarco, Acting Director of the Federal Housing Finance Agency (FHFA), as part of the agency’s monthly *Foreclosure Prevention Report* for July. The report summarizes mortgage delinquency and foreclosure prevention data for Fannie Mae and Freddie Mac.

Following is a summary of the foreclosure prevention data as of July 31, 2009, which includes HAMP trial modifications data through September:

Foreclosure Prevention Actions:

- HAMP trial loan modifications in progress increased by 41 percent to 286,000 in September, from 202,200 in August.
- Completed loan modifications declined for the fourth consecutive month to approximately 7,100 in July as servicers moved from traditional loan modifications to participate in HAMP.
- Short sales increased by 24 percent in July to 5,500 as the pipeline of serious delinquent loans continued to increase.

Mortgage Performance:

- Delinquencies continue to increase as approximately 74,200 more loans became 60 days or more delinquent in July. Loans 60-plus-days delinquent increased approximately 51 percent year-to-date to 1.4 million.

Foreclosures:

- Foreclosure starts in July decreased 30 percent compared with June to nearly 85,300. HAMP requires servicers to explore alternative work-out solutions for borrowers that do not qualify for a loan modification. Loans are referred to foreclosure as a last resort.
- Foreclosure and third-party sales increased slightly to 25,000 in July up from 24,700 in June.

Completed loan modifications are expected to increase later in the year when trial HAMP modifications complete the three-month trial period and provide all required documentation.

###

The Federal Housing Finance Agency regulates Fannie Mae, Freddie Mac and the 12 Federal Home Loan Banks. These government-sponsored enterprises provide more than \$6.3 trillion in funding for the U.S. mortgage markets and financial institutions.

Federal Housing Finance Agency

Foreclosure Prevention Report
July 2009

60-plus-days Delinquency Rates
Delinquency rates continue to rise.

Foreclosure Prevention Actions Completed
Completed foreclosure prevention actions increased in July primarily driven by repayment plans.

* Consists of forbearance plans, charge-offs in lieu, short sales and deeds-in-lieu

HAMP Trial Modifications Started - Monthly Volume
HAMP trial loan modifications in progress continue to increase.

Source: Weekly Servicer Survey

** In July 2009, Fannie Mae changed their definition of completed repayment and forbearance plans to include loans that were 30 days or more delinquent at initiation, consistent with the definition used by Freddie Mac for these items. Previously Fannie Mae's definition of completed repayment and forbearance plans included only repayment plans that were 60 days or more delinquent at initiation and forbearance plans for loans that were 90 days or more delinquent at initiation.

Loan Modifications Completed

Completed loan modifications declined due to HAMP trials.

Short Sales Completed
Completed short sales continued to increase.

Foreclosures
Foreclosure starts decreased sharply in July as servicers explore alternative work-out solutions for borrowers that do not qualify for a loan modification.

The gap between seriously delinquent loans and foreclosure & third-party sales continues to widen as loans take longer to liquidate through foreclosure and third-party sales.

Glossary

Data and definitions in this report have been revised relative to prior versions of the report. FHFA continues to work with the Enterprises to improve the comparability of reported data.

Section 1: Mortgage Performance

Total Loans Serviced - Total conventional active book of business, excluding loans that were liquidated during the month.

Current and Performing - Loans that are making timely payments and are 0 months delinquent as of the reporting month.

Total Delinquent Loans - Loans that are at least one payment past due, i.e., total servicing *minus* current and performing.

30-59 Days Delinquent - Includes loans that are only one payment delinquent.

60-89 Days Delinquent - Includes loans that are only two payments delinquent.

60-plus-days Delinquent - Loans that are two or more payments delinquent, including loans in relief, in the process of foreclosure, or in the process of bankruptcy, i.e., total servicing *minus* current and performing, and 30 to 59 days delinquent loans. Our calculation may exclude loans in bankruptcy process that are less than 60 days delinquent.

Serious Delinquent - all loans in the process of foreclosure *plus* loans that are three or more payments delinquent (including loans in the process of bankruptcy).

In Bankruptcy - Loans in the process of bankruptcy; includes all delinquency status.

Section 2: Completed Foreclosure Prevention Actions

Home Retention Actions - Repayment plans, forbearance plans, charge-offs in lieu of foreclosure, Home Saver Advances, and loan modifications. Home retention actions allow borrowers to retain ownership/occupancy of their homes while attempting to return loans to current and performing status.

Repayment Plans - An agreement between the servicer and a borrower that gives the borrower a defined period of time to reinstate the mortgage by paying normal regular payments plus an additional agreed upon amount in repayment of the delinquency.

Forbearance Plans - An agreement between the servicer and the borrower (or estate) to reduce or suspend monthly payments for a defined period of time. At the end of the forbearance, the borrower is required to bring the account current or to enter into another loss mitigation action, such as a payment plan or a loan modification.

Charge-offs in Lieu of Foreclosure - A delinquent loan for which collection efforts or legal actions against the borrower are agreed to be not in the Enterprises' best interests (because of reduced property value, a low outstanding mortgage balance, or presence of certain environmental hazards). The servicer charges off the mortgage debt rather than completing foreclosure and taking the property title. The borrower retains the property. The unpaid mortgage balance becomes a lien on the borrower's property, which must be satisfied when the borrower transfers ownership.

Home Saver Advance (Fannie Mae) - An unsecured personal loan to a qualified borrower to cure his or her payment defaults under a mortgage loan the Enterprises own or guarantee. The borrower must be able to resume regular monthly payments on his or her mortgage.

Loan Modifications - Number of modified, renegotiated, or restructured loans, regardless of performance-to-date under the plan during the month. Terms of the contract between the borrower and the lender are altered with the aim of curing the delinquency (30 days or more past due).

Nonforeclosure Home Forfeiture Actions - Short sales and deeds in lieu of foreclosure. These actions require borrowers to give up their homes. Although homes are forfeited, foreclosure alternatives generally have less adverse impact on borrowers and their credit reports than foreclosure.

Short Sales - A short sale (also called a preforeclosure sale) is the sale of a mortgaged property at a price that nets less than the total amount due on the mortgage (e.g., the sum of the unpaid principal balance, accrued interest, advanced escrows, late fees, and delinquency charges.) The servicer and borrower negotiate payment of the difference between the net sales price and the total amount due on the mortgage.

Deed(s) in Lieu of Foreclosure - A loan for which the borrower voluntarily conveys the property to the lender to avoid a foreclosure proceeding.

Section 3: Loan Modifications

Increase - Principal and interest after modification is higher than before the modification.

No Increase - Original principal and interest is unchanged after the modifications.

Decrease <=20% - Original principal and interest is decreased by 20 percent or less after modification.

Decrease >20% - Original principal and interest is decreased by more than 20 percent after modification.

Extend Term Only - Remaining term of the loan is longer after modification.

Reduce Rate Only - Loan's rate is lower after modification.

Extend Term and Reduce Rate - Loan's rate reduced and term extended.

Extend Term, Rate Reduction, and Forbear Principal - Modification includes term extension, rate reduction, and forbearance of principal.

Other - A modification that does not fit in any of the above categories. The majority of these loans are capitalized modifications.

Section 4: Third-party Sales and Foreclosures

Third-party Sales - A third party entity purchases the property at the foreclosure sale/auction above the initial bid set forth by Fannie Mae or Freddie Mac.

Foreclosure Starts - The total number of loans referred to an attorney to initiate the legal process of foreclosure during the month. These are loans measured as not being in foreclosure in the previous month but referred to foreclosure in the current month.

Foreclosure Sales - The number of loans that went to foreclosure (sheriff's) sale during the month.
