Subject: Affordable home loans for Manufactured Homes

I beseech your authority to help people to have affordable home loans for Manufactured Homes in today's tight budget, I live in a Manufactured home and the percentage rate is beyond what a stick home pays. I call that unjust and discriminate and it prevents many people from owning their own home. As the saying goes , "there is no place like home ,be it ever so humble.

Please help change this unfair practice of hugh home mortgages .

Thank you for reading my concern about this issue.

Theresa Eaton, Cotati, Ca.

think and pray for peace.
