I'm writing because my family and friends were affected by the economic collapse of 2008, and we don't want it to happen again. I have many friends who have lost their job, who are working hard to find a new one, and can't. When are we going to realize that in order to be a great society once again, we need checks and balances?

I am sick of the Wall Street greed - we need to hold them accountable for the mess that they got us in.

Thank you for considering my comment,
