Subject: Comments regarding RIN 2590-AA42

I am writing because I was seriously affected by the terrible practices of Wall street and its crash. I am 89 years old and live on a modest budget. The crash ruined my nest egg of \$100,000 - meant for my old age survival. It makes me very sad and angry that those responsible for the losses of millions are not in prison, but continue their practices and devotion to their personal wealth. We can do better America, we can put controls in place, we can treat each other fairly!

Thank you for considering my comment, Mary Bassetti
