FHFA FY 2019 List of Potential Competitive Opportunities Consolidated List

Project Description	Estimated Award Amount	Planned Acquisition Strategy	Estimated Award Date	Office or Division
---------------------	------------------------	------------------------------	----------------------	--------------------

Note, this information is always subject to change as requirements emerge over the year. The information is based on budget information and FHFA Contracting Officer's best assessment of competitive opportunities over Fiscal Year 2019 (Fiscal Year quarters begin October 1, 2018 through September 30, 2019).

Estimated Award Amount

SAT = Simplified Acquisition Threshold. The current SAT is \$250,000 for GSA and SEWP buys and will be \$250,000 for open market buys upon final revisions to the Federal Acquisition Regulation implementing the National Defense Authorization Act of 2018.

Acquisition Strategy

If possible, award will be made under a General Services Administration (GSA) contract schedule or Governmentwide Acquisition Contract (GWAC), such as NASA Solutions for Enterprise-Wide Procurement (SEWP). GSA Schedules, NASA SEWP, and other GWACs allow FHFA to compete requirements amongst a diverse mix of firms, including the ability to conduct small business set asides.

Open market requirements will be advertised on the Federal Business Opportunities Web Page as required by the Competition in Contracting Act.

FEDLINK = Federal Library and Information Network. These are resources managed by the Library of Congress to provide information and research services commonly needed by federal agencies.

TBD = To Be Determined.

Program Office Clients with Potential Competitive Requirements

- OBFM= Office of Budget and Financial Management
- OCAC= Office of Congressional Affairs and Communications
- OGC= Office of General Counsel
- OHRM= Office of Human Resources Management
- OMWI= Office of Minority and Women Inclusion
- OTIM= Office of Technology and Information Management
