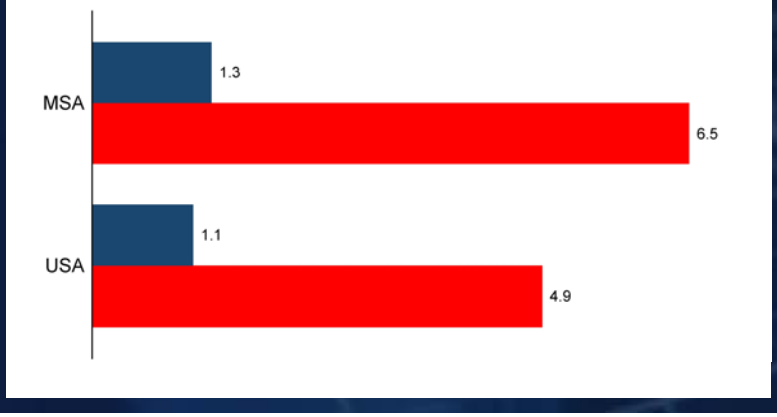
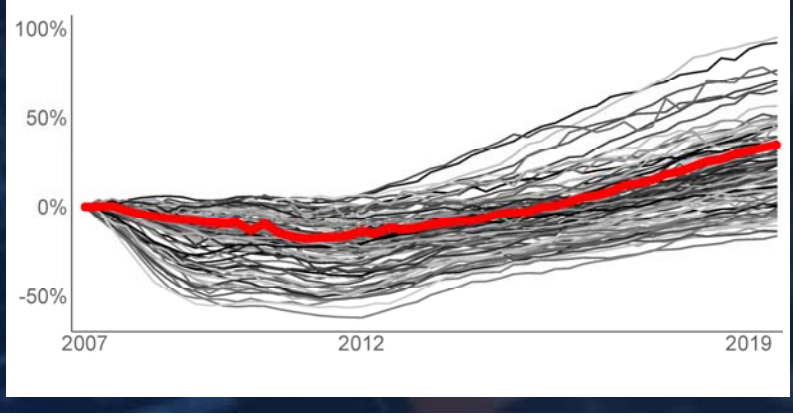
Comparing Recent House Price Changes to the USA — 1Q Change — 4Q Change



Kansas City, MO Metro Area has ranked 30 out of top 100 MSAs in cumulative appreciation since the nationwide peak in 2007 Q1

House Price Gains in the Top 100 MSAs — Kansas City, MO — Other 99 MSAs



FHFA's HPI is the nation's only public, freely available index that measures changes in single-family house prices based on data covering all 50 states and over 400 American cities. Extending back to the mid-1970s, the HPIs are built on tens of millions of home sales and offer insights about house price fluctuations at national, census division, state, metro area, county, ZIP code, and census tract levels.
