June 21, 2010

The Honorable Christopher Dodd
Chairman
Committee on Banking, Housing,
and Urban Affairs
United States Senate
Washington, DC 20510

Dear Chairman Dodd:

I am transmitting the Federal Housing Finance Agency's (FHFA) Federal Property Manager's report in accordance with Section 110 of the Emergency Economic Stabilization Act of 2008 (EESA), titled *Assistance to Homeowners*. Section 110 of EESA directs Federal Property Managers (FPM) to develop and implement plans to maximize assistance for homeowners and encourage servicers of underlying mortgages to take advantage of programs to minimize foreclosures. FHFA is a designated FPM in its role as conservator for Fannie Mae and Freddie Mac. Each FPM is also required to report to Congress the number and types of loan modifications and the number of foreclosures during the reporting period.

As you will read in the attached, reducing conservatorship losses by preventing avoidable foreclosures through loan modification and mortgage refinances is a top priority at FHFA. We will continue to update, elaborate and expand FHFA's plan to maximize assistance for homeowners and minimize preventable foreclosures consistent with the intent of EESA.

Sincerely,

A handwritten signature in black ink that reads 'Peter Brereton'.

Peter Brereton
Associate Director for Congressional Affairs

Federal Housing Finance Agency

Foreclosure Prevention & Refinance Report February / March 2010

FHFA Federal Property Manager's Report

This report contains data on the Enterprises' foreclosure prevention activity through February 2010 and refinance and MHA program activity through March 2010.

60-plus-days Delinquency Rates

Delinquencies stabilized in February. The 60-plus-days delinquency rate for loans with original credit score of less than 660 declined for the first time in two years.

**Foreclosure Prevention Actions Completed**

Completed foreclosure prevention actions increased in February, driven by increases in all forms of home retention activity.

**Loan Modifications Completed**

Completed loan modifications increased in February.

**HAMP Active Trial and Permanent Modifications - Cumulative*****

HAMP remains the primary loan modification program.

Source: Weekly Servicer Survey through September 2009. IR2 (Making Home Affordable system of records) starting in October 2009.

* Consists of HomeSaver Advance (Fannie Mae), Charge-offs in lieu and Deeds-in-lieu.

** In July 2009, Fannie Mae changed their definition of completed repayment and forbearance plans to include loans that were 30 to 59 days delinquent at initiation of the plan, consistent with the definition used by Freddie Mac for these items. Previously Fannie Mae's definition of completed repayment and forbearance plans included only repayment plans that were 60 days or more delinquent at initiation and forbearance plans for loans that were 90 days or more delinquent at initiation. Fannie Mae's 2009 data has been revised accordingly. In addition, the completed forbearance plans data has been revised to exclude HAMP.

*** HAMP trial modifications are based on the first trial payment posted date. HAMP permanent modifications are based on the effective date of modification. As of March, 2010, Fannie Mae had completed 79,700 HAMP permanent modifications and Freddie Mac had completed nearly 56,400 HAMP permanent modifications.

Repayment Plans and Forbearance Plans Completed

Completed repayment plans and forbearance plans increased in February.

* Data has been revised to exclude HAMP.

Short Sales

Completed short sales decreased in February.

**Mortgage Rates and Refinance Volumes**

Refinance volume fell slightly in March as the rate for a thirty-year mortgage fluctuated in a narrow range over the past few months.

A - Highest rate in 2008 for a 30 year mortgage

B - GSEs placed into conservatorship on 09/07/08

C - Fed announces MBS purchase program on 11/25/08

D - Making Home Affordable announcement 02/20/09

E - Treasury rates sharply rose and reached a 2009 high on a better than expected unemployment report in June.

F - Treasury rates fell sharply after Dubai sought to delay sovereign debt payments.

Fannie Mae and Freddie Mac Refinance Volumes

Fannie Mae and Freddie Mac refinanced nearly 291,600 loans through the HARP program through March 2010.

	March 2010	Year to Date	Inception to Date ¹
Total Refinances			
Fannie Mae	128,920	417,100	2,304,585
Freddie Mac	106,861	321,889	1,645,652
Total	235,781	738,989	3,950,237
HARP LTV >80% -105%			
Fannie Mae	18,747	52,332	155,479
Freddie Mac	14,040	44,460	129,570
Total	32,787	96,792	285,049
HARP LTV >105% -125%			
Fannie Mae	794	2,103	3,073
Freddie Mac	924	2,509	3,462
Total	1,718	4,612	6,535
All Other Streamlined Refis			
Fannie Mae	29,128	87,878	312,796
Freddie Mac	17,055	60,639	143,794
Total	46,183	148,517	456,590

Fannie Mae and Freddie Mac HARP vs Total Refinance

Monthly HARP volume decreased slightly in March following the same pattern as total refinance volume. The HARP percentage of total refinance volume rose.

Notes:

HARP Refinance Loans are defined as Fannie Mae to Fannie Mae and Freddie Mac to Freddie Mac first lien refinance loans with limited and no cash out that are owner occupied with LTV's over 80 to 125.

All Other Streamlined Refis are streamlined refinances that do not qualify as HARP >80% - 125% refinances. Fannie Mae implements streamlined refinances through the Refi Plus product for manual underwriting and DU Refi Plus product for loans underwritten through Desktop Underwriter. The product is available for refinances of existing Fannie Mae loans only. Freddie Mac implements streamlined refinances through the Relief Refinance Mortgage product. Loans may be originated by any Freddie Mac approved servicer.

¹Inception to Date - Since April 1, 2009

*The number of foreclosure prevention actions reported in this table may not tie to the Enterprises' financial statements due to timing differences in reporting systems.

** Forbearance plans initiated include HAMP trials initiated by servicers under the MHA program. In addition, starting in August, forbearance plans initiated include Fannie Mae's HomeSaver forbearance plans. HAMP trial modifications are based on the first trial payment posted date. HAMP permanent modifications are based on the effective date of modification. As of March, 2010, Fannie Mae had completed 79,700 HAMP permanent modifications and Freddie Mac had completed nearly 56,400 HAMP permanent modifications.

*** In July 2009, Fannie Mae changed their definition of completed repayment and forbearance plans to include loans that were 30 to 59 days delinquent at initiation of the plan, consistent with the definition used by Freddie Mac for these items. Previously Fannie Mae's definition of completed repayment and forbearance plans included only repayment plans that were 60 days or more delinquent at initiation and forbearance plans for loans that were 90 days or more delinquent at initiation. Fannie Mae's 2009 data has been revised accordingly. In addition, the completed forbearance plans data has been revised to exclude HAMP.

Notes:

HARP Refinance Loans are defined as Fannie Mae to Fannie Mae and Freddie Mac to Freddie Mac first lien refinance loans with limited and no cash out that are owner occupied with LTV's over 80 to 125.

All Other Streamlined Refis are streamlined refinances that do not qualify as HARP >80% - 125% refinances. Fannie Mae implements streamlined refinances through the Refi Plus product for manual underwriting and DU Refi Plus product for loans underwritten through Desktop Underwriter. The product is available for refinances of existing Fannie Mae loans only. Freddie Mac implements streamlined refinances through the Relief Refinance Mortgage product. Loans may be originated by any Freddie Mac approved servicer.

FHFA produces monthly and quarterly versions of the Foreclosure Prevention and Refinance Report. In addition to the data provided in the monthly reports, the quarterly reports includes the following information: MHA program updates; benchmarking of the Enterprises' delinquency rates; the type and depth of loan modifications; and the performance of modified loans.

Glossary

Data and definitions in this report have been revised relative to prior versions of the report. FHFA continues to work with the Enterprises to improve the comparability of reported data.

Section 1: Mortgage Performance

Total Loans Serviced - Total conventional active book of business, excluding loans that were liquidated during the month.

Current and Performing - Loans that are making timely payments and are 0 months delinquent as of the reporting month.

Total Delinquent Loans - Loans that are at least one payment past due, i.e., total servicing *minus* current and performing.

30-59 Days Delinquent - Includes loans that are only one payment delinquent.

60-89 Days Delinquent - Includes loans that are only two payments delinquent.

60-plus-days Delinquent - Loans that are two or more payments delinquent, including loans in relief, in the process of foreclosure, or in the process of bankruptcy, i.e., total servicing *minus* current and performing, and 30 to 59 days delinquent loans. Our calculation may exclude loans in bankruptcy process that are less than 60 days delinquent.

Serious Delinquency - All loans in the process of foreclosure *plus* loans that are three or more payments delinquent (including loans in the process of bankruptcy).

In Bankruptcy - Loans in the process of bankruptcy; includes all delinquency status.

Section 2: Completed Foreclosure Prevention Actions

Home Retention Actions - Repayment plans, forbearance plans, charge-offs in lieu of foreclosure, Home Saver Advances, and loan modifications. Home retention actions allow borrowers to retain ownership/occupancy of their homes while attempting to return loans to current and performing status.

Repayment Plans - An agreement between the servicer and a borrower that gives the borrower a defined period of time to reinstate the mortgage by paying normal regular payments plus an additional agreed upon amount in repayment of the delinquency.

Forbearance Plans - An agreement between the servicer and the borrower (or estate) to reduce or suspend monthly payments for a defined period of time after which borrower resumes regular monthly payments and pays additional money toward the delinquency to bring the account current or works with the servicer to identify a permanent solution, such as loan modification or short sale, to address the delinquency.

Charge-offs in Lieu of Foreclosure - A delinquent loan for which collection efforts or legal actions against the borrower are agreed to be not in the Enterprises' best interests (because of reduced property value, a low outstanding mortgage balance, or presence of certain environmental hazards). The servicer charges off the mortgage debt rather than completing foreclosure and taking the property title. The borrower retains the property. The unpaid mortgage balance becomes a lien on the borrower's property, which must be satisfied when the borrower transfers ownership.

Home Saver Advance (Fannie Mae) - An unsecured personal loan to a qualified borrower to cure his or her payment defaults under a mortgage loan the Enterprises own or guarantee. The borrower must be able to resume regular monthly payments on his or her mortgage.

Loan Modifications - Number of modified, renegotiated, or restructured loans, regardless of performance-to-date under the plan during the month. Terms of the contract between the borrower and the lender are altered with the aim of curing the delinquency (30 days or more past due).

Nonforeclosure Home Forfeiture Actions - Short sales and deeds-in-lieu of foreclosure. These actions require borrowers to give up their homes. Although homes are forfeited, foreclosure alternatives generally have less adverse impact on borrowers and their credit reports than foreclosure.

Short Sales - A short sale (also called a preforeclosure sale) is the sale of a mortgaged property at a price that nets less than the total amount due on the mortgage (e.g., the sum of the unpaid principal balance, accrued interest, advanced escrows, late fees, and delinquency charges.) The servicer and borrower negotiate payment of the difference between the net sales price and the total amount due on the mortgage.

Deed(s)-in-lieu of Foreclosure - A loan for which the borrower voluntarily conveys the property to the lender to avoid a foreclosure proceeding.

Section 3: Loan Modifications

Increase - Principal and interest after modification is higher than before the modification.

No Increase - Original principal and interest is unchanged after the modifications.

Decrease <=20% - Original principal and interest is decreased by 20 percent or less after modification.

Decrease >20% - Original principal and interest is decreased by more than 20 percent after modification.

Extend Term Only - Remaining term of the loan is longer after modification.

Reduce Rate Only - Loan's rate is lower after modification.

Extend Term and Reduce Rate - Loan's rate reduced and term extended.

Extend Term, Rate Reduction, and Forbear Principal - Modification includes term extension, rate reduction, and forbearance of principal.

Other - A modification that does not fit in any of the above categories. The majority of these loans are capitalized modifications.

Section 4: Third-party Sales and Foreclosures

Third-party Sales - A third party entity purchases the property at the foreclosure sale/auction above the initial bid set forth by Fannie Mae or Freddie Mac.

Foreclosure Starts - The total number of loans referred to an attorney to initiate the legal process of foreclosure during the month. These are loans measured as not being in foreclosure in the previous month but referred to foreclosure in the current month.

Foreclosure Sales - The number of loans that went to foreclosure (sheriff's) sale during the month.

First Quarter Highlights

Making Home Affordable Program (The Enterprises):

- The number of HAMP permanent modifications tripled during the first quarter to 136,000. In addition, more than 448,000 borrowers were in a HAMP trial period at the end of the quarter.
- The Enterprises' Cumulative HARP refinance volume increased 53 percent during the first quarter to nearly 291,600.

The Enterprises' Completed Foreclosure Prevention Actions:

- Completed foreclosure prevention activity increased 75 percent in the first quarter to approximately 239,000, driven by increases in all forms of home retention activity, short sales and deeds-in-lieu.
- Completed loan modifications doubled to nearly 137,600 in the first quarter with the majority of modifications completed through HAMP. Fifty-four percent of loan modifications completed during the quarter involved a combination of rate reduction and term extension.
- Approximately two-thirds of completed loan modifications in the first quarter lowered borrowers' monthly payments by over 20 percent.
- The Enterprises completed nearly 55,900 and 18,000 repayment plans and forbearance plans, respectively, during the quarter.
- More than 24,300 short sales and deeds-in-lieu were completed during the first quarter, an increase of 23 percent over the prior quarter.

The Enterprises' Mortgage Performance:

- Loans that are only one month delinquent decreased by 115,600 loans or 16 percent during the first quarter to approximately 609,000.
- Loans 60-plus-days delinquent declined for the first time in two years. The 60-plus-days delinquent loans decreased by nearly 23,800 loans or 1.3 percent during the first quarter to approximately 1.7 million.

The Enterprises' Foreclosures:

- Foreclosure starts increased slightly to approximately 246,300, while completed foreclosure sales and third-party sales increased 26 percent to nearly 97,900 in the first quarter.

Making Home Affordable Program - Status Update

Home Affordable Modification Program (HAMP)

- Announced March 4, 2009.
- Allows a borrower's payment to be reduced to an affordable amount through an interest rate reduction (down to 2 percent), a term extension (up to 480 months), or principal forbearance. Incentives are being offered to borrowers, servicers, and investors for program participation and a successful payment history.
- The Enterprises reported approximately 584,100 active trial and permanent modifications through March 2010 (of which approximately 136,000 were permanent modifications).

HAMP Active Trial and Permanent Modifications - Cumulative*
(Number of loans in thousands)

Source: Weekly Servicer Survey through September 2009. IR2 (Making Home Affordable system of records) starting in October 2009.

Home Affordable Refinance Program (HARP)

- Announced March 4, 2009.
- Allows existing Enterprise borrowers who are current on their mortgage payments to refinance and reduce their monthly mortgage payments at loan-to-value ratios up to 125 percent without new mortgage insurance.
- The HARP percentage of total monthly refinance volume increased in March to 15 percent. The HARP percentage of total refinances increased for the fifth consecutive month.

Enterprises' Mortgage Delinquency Rates

**Serious Delinquency Rates*
Enterprises versus Mortgage Industry**

60-plus-days Delinquency Rates

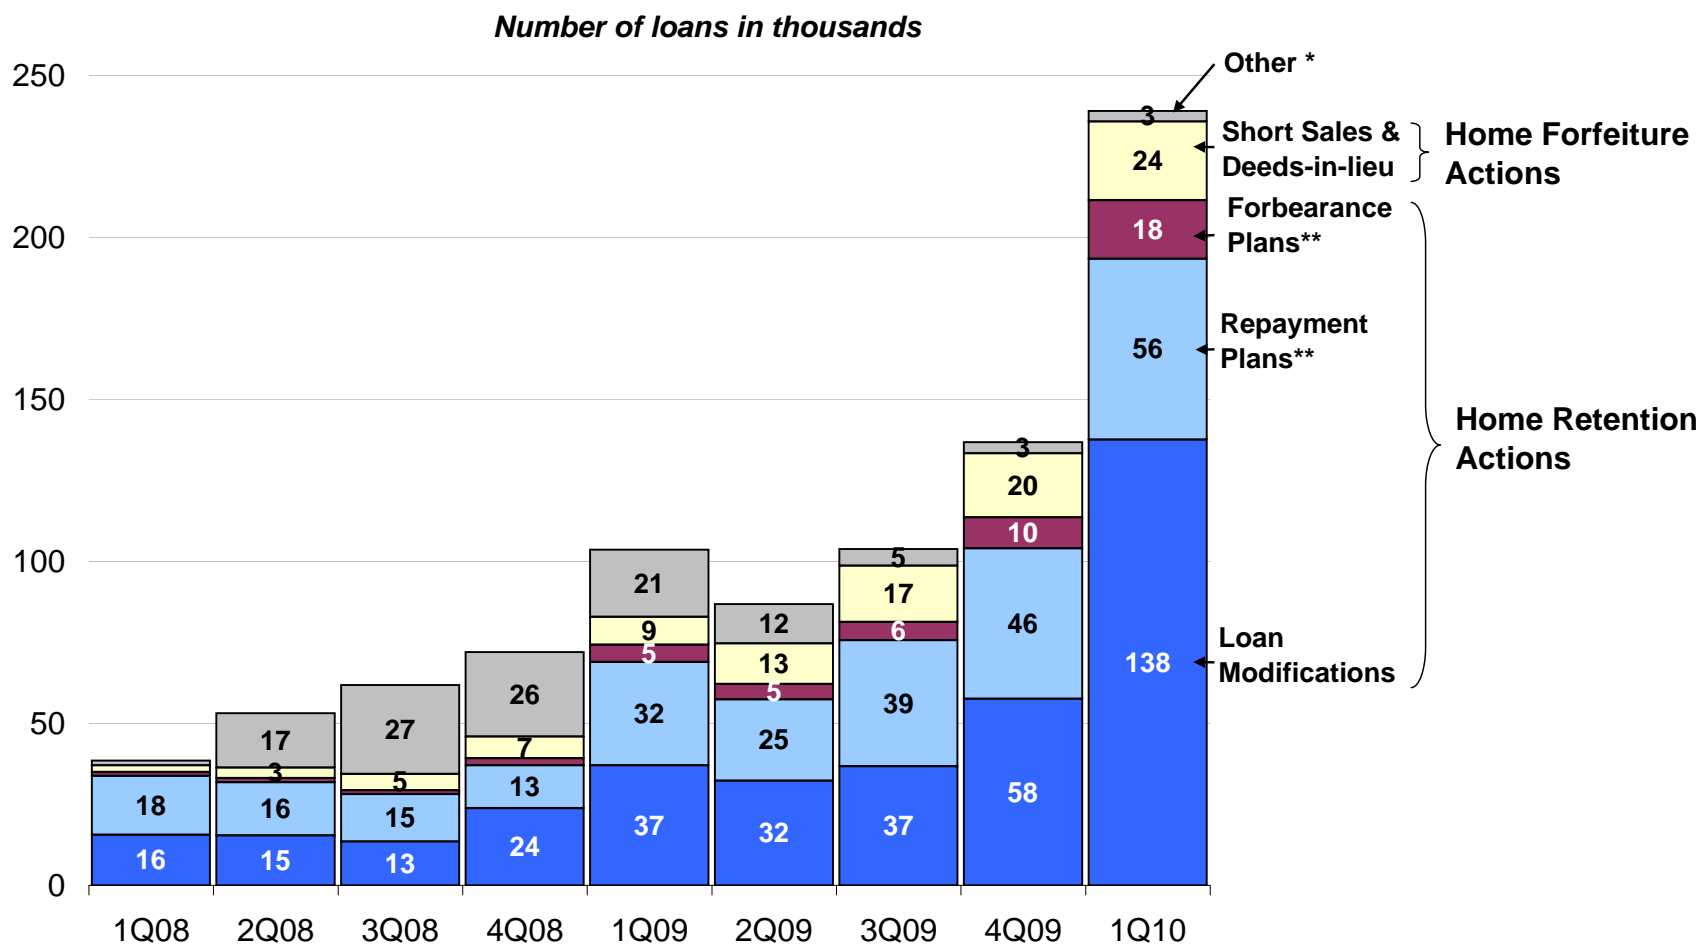

Source: Fannie Mae and Freddie Mac; National Delinquency Survey from MBA - First Quarter 2010

* 90 days or more delinquent, or in the process of foreclosure.

Foreclosure Prevention Activity: All Actions Completed

The Enterprises' completed foreclosure prevention activity increased substantially in the first quarter driven by increases in all forms of home retention activity, short sales and deeds-in-lieu.

* Consists of HomeSaver Advance (Fannie Mae) and Charge-offs in lieu.

** Include loans that were 30+ days delinquent at initiation of the plan. In addition, the completed forbearance plans data has been revised to exclude HAMP.

Foreclosure Prevention Activity: Home Retention Actions

The Enterprises' completed loan modifications doubled to nearly 137,600 during the first quarter with the majority of modifications completed through HAMP. In addition, repayment plans and forbearance plans increased substantially during the quarter to nearly 55,900 and 18,000 respectively.

Loan Modifications Completed
(Number of loans in thousands)

Repayment and Forbearance Plans Completed
(Number of loans in thousands)

Enterprises' Loan Modifications

Loans modified in the fourth quarter of 2009 are performing substantially better three months after modification, compared to loans modified in earlier periods. HAMP permanent modifications, which accounted for a sizeable proportion of loans modified in the second half of 2009, involve substantial reductions in borrowers' payments. Two-thirds of borrowers had their payments lowered by 20 percent or more in the first quarter of 2010.

Fannie Mae's Loan Modifications

Modified loans data may not tie to Fannie Mae's financial statements due to timing differences in reporting systems.

Freddie Mac's Loan Modifications

Modified loans data may not tie to Freddie Mac's financial statements due to timing differences in reporting

Foreclosure Prevention Activity: Home Forfeiture Actions

Short sales and deeds-in-lieu of foreclosure increased during the first quarter as the Enterprises continue to utilize these strategies to reduce foreclosure-related costs and to minimize the impact of foreclosures on borrowers, communities and neighborhoods.

Refinance Activity

Refinance volume fell slightly in March as the rate for a thirty-year mortgage fluctuated in a narrow range over the past few months.

- A - Highest rate in 2008 for a 30 year mortgage
- B - GSEs placed into conservatorship on 09/07/08
- C - Fed announces MBS purchase program on 11/25/08

- D - Obama Administration's Making Homes Affordable announcement 02/20/09
- E - Treasury rates sharply rose and reached a 2009 high on a better than expected unemployment report in June.
- F - Treasury rates fell sharply after Dubai sought to delay sovereign debt payments.

Refinance Activity

Fannie Mae and Freddie Mac refinanced nearly 291,600 loans through the HARP program through March 2010.

	March 2010	Year to Date	Inception to Date ¹
Total Refinances			
Fannie Mae	128,920	417,100	2,304,585
Freddie Mac	<u>106,861</u>	<u>321,889</u>	<u>1,645,652</u>
Total	235,781	738,989	3,950,237

*The number of foreclosure prevention actions reported in this table may not tie to the Enterprises' financial statements due to timing differences in reporting systems.

** Forbearance plans initiated include HAMP trials initiated by servicers under the MHA program. In addition, starting in August, forbearance plans initiated include Fannie Mae's HomeSaver forbearance plans. HAMP trial modifications are based on the first trial payment posted date. HAMP permanent modifications are based on the effective date of modification. As of March, 2010, Fannie Mae had completed 79,700 HAMP permanent modifications and Freddie Mac had completed nearly 56,400 HAMP permanent modifications.

*** Include loans that were 30+ days delinquent at initiation of the plan. In addition, the completed forbearance plans data has been revised to exclude HAMP.

Notes:

HARP Refinance Loans are defined as Fannie Mae to Fannie Mae and Freddie Mac to Freddie Mac first lien refinance loans with limited and no cash out that are owner occupied with LTV's over 80 to 125.

All Other Streamlined Refis are streamlined refinances that do not qualify as HARP >80% - 125% refinances. Fannie Mae implements streamlined refinances through the Refi Plus product for manual underwriting and DU Refi Plus product for loans underwritten through Desktop Underwriter. The product is available for refinances of existing Fannie Mae loans only. Freddie Mac implements streamlined refinances through the Relief Refinance Mortgage product. Loans may be originated by any Freddie Mac approved servicer.

FHFA produces monthly and quarterly versions of the Foreclosure Prevention and Refinance Report. In addition to the data provided in the monthly reports, the quarterly reports includes the following information: MHA program updates; benchmarking of the Enterprises' delinquency rates; the type and depth of loan modifications; and the performance of modified loans.

Glossary

Data and definitions in this report have been revised relative to prior versions of the report. FHFA continues to work with the Enterprises to improve the comparability of reported data.

Section 1: Mortgage Performance

Total Loans Serviced - Total conventional active book of business, excluding loans that were liquidated during the month.

Current and Performing - Loans that are making timely payments and are 0 months delinquent as of the reporting month.

Total Delinquent Loans - Loans that are at least one payment past due, i.e., total servicing *minus* current and performing.

30-59 Days Delinquent - Includes loans that are only one payment delinquent.

60-89 Days Delinquent - Includes loans that are only two payments delinquent.

60-plus-days Delinquent - Loans that are two or more payments delinquent, including loans in relief, in the process of foreclosure, or in the process of bankruptcy, i.e., total servicing *minus* current and performing, and 30 to 59 days delinquent loans. Our calculation may exclude loans in bankruptcy process that are less than 60 days delinquent.

Serious Delinquency - All loans in the process of foreclosure *plus* loans that are three or more payments delinquent (including loans in the process of bankruptcy).

In Bankruptcy - Loans in the process of bankruptcy; includes all delinquency status.

Section 2: Completed Foreclosure Prevention Actions

Home Retention Actions - Repayment plans, forbearance plans, charge-offs in lieu of foreclosure, Home Saver Advances, and loan modifications. Home retention actions allow borrowers to retain ownership/occupancy of their homes while attempting to return loans to current and performing status.

Repayment Plans - An agreement between the servicer and a borrower that gives the borrower a defined period of time to reinstate the mortgage by paying normal regular payments plus an additional agreed upon amount in repayment of the delinquency.

Forbearance Plans - An agreement between the servicer and the borrower (or estate) to reduce or suspend monthly payments for a defined period of time after which borrower resumes regular monthly payments and pays additional money toward the delinquency to bring the account current or works with the servicer to identify a permanent solution, such as loan modification or short sale, to address the delinquency.

Charge-offs in Lieu of Foreclosure - A delinquent loan for which collection efforts or legal actions against the borrower are agreed to be not in the Enterprises' best interests (because of reduced property value, a low outstanding mortgage balance, or presence of certain environmental hazards). The servicer charges off the mortgage debt rather than completing foreclosure and taking the property title. The borrower retains the property. The unpaid mortgage balance becomes a lien on the borrower's property, which must be satisfied when the borrower transfers ownership.

Home Saver Advance (Fannie Mae) - An unsecured personal loan to a qualified borrower to cure his or her payment defaults under a mortgage loan the Enterprises own or guarantee. The borrower must be able to resume regular monthly payments on his or her mortgage.

Loan Modifications - Number of modified, renegotiated, or restructured loans, regardless of performance-to-date under the plan during the month. Terms of the contract between the borrower and the lender are altered with the aim of curing the delinquency (30 days or more past due).

Nonforeclosure-Home Forfeiture Actions - Short sales and deeds-in-lieu of foreclosure. These actions require borrowers to give up their homes. Although homes are forfeited, foreclosure alternatives generally have less adverse impact on borrowers and their credit reports than foreclosure.

Short Sales - A short sale (also called a preforeclosure sale) is the sale of a mortgaged property at a price that nets less than the total amount due on the mortgage (e.g., the sum of the unpaid principal balance, accrued interest, advanced escrows, late fees, and delinquency charges.) The servicer and borrower negotiate payment of the difference between the net sales price and the total amount due on the mortgage.

Deed(s)-in-lieu of Foreclosure - A loan for which the borrower voluntarily conveys the property to the lender to avoid a foreclosure proceeding.

Section 3: Loan Modifications

Increase - Principal and interest after modification is higher than before the modification.

No Increase - Original principal and interest is unchanged after the modifications.

Decrease <=20% - Original principal and interest is decreased by 20 percent or less after modification.

Decrease >20% - Original principal and interest is decreased by more than 20 percent after modification.

Extend Term Only - Remaining term of the loan is longer after modification.

Reduce Rate Only - Loan's rate is lower after modification.

Extend Term and Reduce Rate - Loan's rate reduced and term extended.

Extend Term, Rate Reduction, and Forbear Principal - Modification includes term extension, rate reduction, and forbearance of principal.

Other - A modification that does not fit in any of the above categories. The majority of these loans are capitalized modifications.

Section 4: Third-party Sales and Foreclosures

Third-party Sales - A third party entity purchases the property at the foreclosure sale/auction above the initial bid set forth by Fannie Mae or Freddie Mac.

Foreclosure Starts - The total number of loans referred to an attorney to initiate the legal process of foreclosure during the month. These are loans measured as not being in foreclosure in the previous month but referred to foreclosure in the current month.

Foreclosure Sales - The number of loans that went to foreclosure (sheriff's) sale during the month.
