

## February 2021 Highlights - Foreclosure Prevention

## The Enterprises' Foreclosure Prevention Actions:

- The Enterprises completed 60,661 foreclosure prevention actions in February, bringing the total to $5,720,846$ since the start of the conservatorships in September 2008. Approximately 43 percent of these actions have been permanent loan modifications.
- There were 3,334 permanent loan modifications in February, bringing the total to 2,447,531 since the conservatorships began in September 2008.
- Ten percent of modifications in February were modifications with principal forbearance. Modifications with extend-term only accounted for 66 percent of all loan modifications during the month.
- The number of borrowers who received payment deferrals after completing a COVID-19 related forbearance plan decreased from 38,976 in January to 35,468 in February.
- Initiated forbearance plans decreased 17 percent from 47,866 in January to 39,825 in February. The total number of loans in forbearance plan also decreased from 771,369 at the end of January to 738,925 at the end of February, representing approximately $2.5 \%$ of the total loans serviced, and 63 percent of the total delinquent loans.
- There were 219 short sales and deeds-in-lieu of foreclosure completed in February, down 6 percent compared with January.

## The Enterprises' Mortgage Performance:

- The 30-59 days delinquency rate increased to 1.06 percent, while the serious delinquency rate decreased from 2.70 percent at the end of January to 2.66 percent at the end of February.

## The Enterprises' Foreclosures:

- Third-party and foreclosure sales increased slightly to 625 while foreclosure starts decreased 16 percent to 1,743 in February.

## February 2021 Highlights - Refinance Activities

- Total refinance volume fell in February 2021 amid a rise from historic low mortgage rates in January. Mortgage rates increased in February: the average interest rate on a 30 -year fixed rate mortgage rose to 2.81 percent from 2.74 percent in January.
- In February, 6 refinances were completed through the High LTV Refinance Option, bringing total refinances through the High LTV Refinance Option from the inception of the program to 156.
- The percentage of cash-out refinances continued at 27 percent in February, remaining below the levels observed in the previous few years. Historic low mortgage rates have created more opportunities for non cash-out borrowers to refinance at lower rates and lower their monthly payments.

## Overview of the Enterprises' High LTV Refinance Options to Replace HARP

As a replacement for HARP, Fannie Mae and Freddie Mac have created options for refinancing mortgages with a high loan-tovalue (LTV) ratio:

- The Fannie Mae option is called the high loan-to-value refinance option.
- The Freddie Mac option is called the Enhanced Relief Refinance Mortgage Program.
Deliveries were eligible beginning January 1, 2019.
FHFA will report on the Enterprises' high LTV refinance volumes under these options as they develop. Currently 156 loans have been transacted under these options, per the table below.

Total Loan Volume, High LTV Refinance Option

|  |  |  | Inception |  |
| :--- | ---: | ---: | ---: | ---: | ---: |
|  | Jan 21 Feb 21 | 2020 | 2019 To Date |  |

## Eligibility Criteria for the Enterprises' High LTV

## Refinance Options

Below are the basic eligibility criteria:

- Loans must be owned or guaranteed by Fannie Mae or Freddie Mac.
- Loans must have been originated on or after October 1, 2017 and paid for at least 15 months.
- LTV ratios must be greater than the following percentages:

|  | Number <br> of Units | Fannie <br> Mae | Freddie <br> Mac |
| :--- | :---: | ---: | ---: |
| Occupancy | 1 | 97 | 97 |
| Principal Residence | 2 | 85 | 85 |
|  | $3-4$ | 75 | 80 |
| Second Home | 1 | 90 | 90 |
| Investment Property | 1 | 75 | 85 |
|  | $2-4$ | 75 | 75 |

- Borrowers must benefit in at least one of the following ways:
- Reduced monthly principal and interest payment
- Lower interest rate
- Shorter amortization term
- Moving from an adjustable-rate mortgage to a fixed-rate mortgage
- Borrowers must be current on their mortgage payments at the time of the refinance.
- Payment history - borrower is allowed one late payment in the past 12 months, as long as it did not occur in the 6 months prior to the refinance.

Total refinance volume fell in February 2021 amid a rise from historic low rates in January. Mortgage rates increased in February: the average interest rate on a 30 -year fixed rate mortgage rose to 2.81 percent from 2.74 percent in January.

Mortgage Rates vs Refinance Volume

A - Highest rate in 2008 for a 30-year mortgage.
B - GSEs placed into conservatorship on 09/06/08.
C - Fed announces MBS purchase program on 11/25/08.
D - Treasury rates sharply rose and reached a 2009 high on a better than expected June unemployment report.
E-30-year mortgage rates reached 4.17 percent in early November, marking the lowest level observed since Freddie Mac began tracking rates in 1971.
F - Treasury rates fell amid ongoing concerns of a growing debt crisis in Europe.
G - 30-year mortgage rates reached new historic lows in November 2012.

H - Mortgage rates rose after Federal Reserve Chairman Bernanke stated in late May that the central bank was considering slowing its $\$ 85$ billion per month bond buying program known as quantitative easing.
I - Highest rate for a 30-year mortgage since July 2011.
J-30-year mortgage rates reached a monthly average of 3.67 percent in January, the lowest level seen since mid 2013.
K - 30-year mortgage rates reached a monthly average of 4.05 percent in 6/2015, the highest level observed since 9/2014, amid expectations of a rate hike by the Federal Reserve.
L - The Federal Reserve raised the target federal funds rate from $0.25 \%$ to $0.5 \%$ on $12 / 16 / 15$ in response to a strengthening economy.
M- Treasury rates fell, amid a global flight to the safety of government debt, in response to the U.K. Brexit vote to leave the European Union.

N - Mortgage rates rose in November and December 2016 amid expectations of a rate hike by the Federal Reserve. The Federal Reserve raised the target federal funds rate to $0.75 \%$ on $12 / 14 / 16$ in response to a strengthening economy.
O-Mortgage rates fell from the beginning to the end of 2017 as the target Federal Funds rate was raised to 1\% on March 16th, $1.25 \%$ on June 15 , and $1.5 \%$ on December 14, with the Federal Reserve following a steady path to normalize its benchmark rate.
P - Mortgage rates rose from the beginning to the end of 2018, as the target Federal Funds rate was incrementally raised quarterly to $1.75 \%, 2 \%, 2.25 \%$ and 2.5\%, with the Federal Reserve projecting a continued steady growth of the US economy in 2018.

The percentage of cash-out refinances continued at 27 percent in February, remaining below the levels observed in the previous few years. Historic low mortgage rates have created more opportunities for non cashout borrowers to refinance at lower rates and lower their monthly payments.

Percentage of Cash-out Refinances vs Mortgage Rates

Source: FHFA (Fannie Mae and Freddie Mac). Mortgage rates are from the Freddie Mac Primary Mortgage Market Survey, monthly average, from the Freddie Mac website.

The percentage of borrowers refinancing into shorter term 15-year fixed rate mortgages continued at 22 percent in February, remaining below the levels observed in the past when the difference between the 15 - and 30 - year fixedrate mortgages was bigger.

> Percentage of Refinances into 15 -Year Mortgages vs The Difference Between $15-$ and 30 -Year Fixed Rate Mortgages

Notes:
Total Refinances

- Freddie Mac Total Refinances include Long Term Standby (LTSB).
- The Fannie Mae option is called the high loan-to-value refinance option
- The Freddie Mac option is called the Enhanced Relief Refinance Mortgage Program

Deliveries were eligible beginning January 1, 2019.
FHFA will report on the Enterprises' high LTV refinance volumes under these options as they develop.

## Glossary

## Section 1: Mortgage Performance

Total Loans Serviced - Total conventional active book of business, excluding loans that were liquidated during the month.
Current and Performing - Loans that are making timely payments and are 0 months delinquent as of the reporting month.
Total Delinquent Loans - Loans that are at least one payment past due, i.e., total servicing minus current and performing.
30-59 Days Delinquent - Includes loans that are only one payment delinquent.
60-89 Days Delinquent - Includes loans that are only two payments delinquent.
60-plus-days Delinquent - Loans that are two or more payments delinquent, including loans in relief, in the process of foreclosure, or in the process of bankruptcy, i.e., total servicing minus current and performing, and 30 to 59 days delinquent loans. Our calculation may exclude loans in bankruptcy process that are less than 60 days delinquent.
Serious Delinquency - All loans in the process of foreclosure plus loans that are three or more payments delinquent (including loans in the process of bankruptcy).
In Bankruptcy - Loans in the process of bankruptcy; includes all delinquency status.

## Section 2: Completed Foreclosure Prevention Actions

Home Retention Actions - Repayment plans, forbearance plans, charge-offs in lieu of foreclosure, Home Saver Advances, and loan modifications. Home retention actions allow borrowers to retain ownership/occupancy of their homes while attempting to return loans to current and performing status.
Repayment Plans - An agreement between the servicer and a borrower that gives the borrower a defined period of time to reinstate the mortgage by paying normal regular payments plus an additional agreed upon amount in repayment of the delinquency.
Forbearance Plans - An agreement between the servicer and the borrower (or estate) to reduce or suspend monthly payments for a defined period of time after which borrower resumes regular monthly payments and pays additional money toward the delinquency to bring the account current or works with the servicer to identify a permanent solution, such as loan modification or short sale, to address the delinquency.
Charge-offs-in-lieu of Foreclosure - A delinquent loan for which collection efforts or legal actions against the borrower are agreed to be not in the Enterprises' best interests (because of reduced property value, a low outstanding mortgage balance, or presence of certain environmental hazards). The servicer charges off the mortgage debt rather than completing foreclosure and taking the property title. The borrower retains the property. The unpaid mortgage balance becomes a lien on the borrower's property, which must be satisfied when the borrower transfers ownership.
HomeSaver Advance (Fannie Mae) - An unsecured personal loan to a qualified borrower to cure his or her payment defaults under a mortgage loan the Enterprises own or guarantee. The borrower must be able to resume regular monthly payments on his or her mortgage. The program ended in 2010.

Loan Modifications - Number of modified, renegotiated, or restructured loans, regardless of performance-to-date under the plan during the month. Terms of the contract between the borrower and the lender are altered with the aim of curing the delinquency ( 30 days or more past due).
Payment Deferral - A home retention workout option that defers past-due principal and interest payments (and amounts advanced if applicable) as a non-interest bearing balance, due and payable at maturity of the mortgage loan, or earlier upon the sale or transfer of the property, refinance of the mortgage loan, or payoff of the interest-bearing UPB.
Nonforeclosure-Home Forfeiture Actions- Short sales and deeds-in-lieu of foreclosure. These actions require borrowers to give up their homes. Although homes are forfeited, foreclosure alternatives generally have less adverse impact on borrowers and their credit reports than foreclosure.
Short Sales - A short sale (also called a preforeclosure sale) is the sale of a mortgaged property at a price that nets less than the total amount due on the mortgage (e.g., the sum of the unpaid principal balance, accrued interest, advanced escrows, late fees, and delinquency charges.) The servicer and borrower negotiate payment of the difference between the net sales price and the total amount due on the mortgage.
Deed(s)-in-lieu of Foreclosure - A loan for which the borrower voluntarily conveys the property to the lender to avoid a foreclosure proceeding.

## Section 3: Loan Modifications

Increase - Principal and interest after modification is higher than before the modification. No Increase - Original principal and interest is unchanged after the modifications.
Decrease $\mathbf{< = \mathbf { 2 0 } \%}$ - Original principal and interest is decreased by 20 percent or less after modification.
Decrease $\mathbf{> 2 0 \%}$ - Original principal and interest is decreased by more than 20 percent after modification.
Extend Term Only - Remaining term of the loan is longer after modification.
Reduce Rate Only - Loan's rate is lower after modification.
Reduce Rate and Extend Term - Loan's rate reduced and term extended.
Reduce Rate, Extend Term, and Forbear Principal - Modification includes term extension, rate reduction, and forbearance of principal.
Other - A modification that does not fit in any of the above categories. The majority of these loans are capitalized modifications.

## Section 4: Third-party Sales and Foreclosures

Third-party Sales - A third party entity purchases the property at the foreclosure sale/auction above the initial bid set forth by Fannie Mae or Freddie Mac.
Foreclosure Starts - The total number of loans referred to an attorney to initiate the legal process of foreclosure during the month. These are loans measured as not being in foreclosure in the previous month but referred to foreclosure in the current month.
Foreclosure Sales - The number of loans that went to foreclosure (sheriff's) sale during the month.

[^0]:    ${ }^{1}$ Short sales and deeds-in-lieu of foreclosure completed.
