FHFA House Price Index Up 1.0 Percent in January; Up 12.0 Percent from Last Year

Washington, D.C. – House prices rose nationwide in January, up **1.0 percent** from the previous month, according to the latest Federal Housing Finance Agency House Price Index (FHFA HPI[®]). House prices rose **12.0 percent** from January 2020 to January 2021. The previously reported 1.1 percent price change for December 2020 was revised upward to 1.2 percent.

For the nine census divisions, seasonally adjusted monthly house price changes from December 2020 to January 2021 ranged from -**0.2 percent** in the East South Central division to +**1.5 percent** in the Mountain division. The 12-month changes ranged from +**10.2 percent** in the West South Central division to +**14.8 percent** in the Mountain division.

"While house prices experienced historic growth rates in 2020 and into the new year, the monthly gains appear to be moderating" said Dr. Lynn Fisher, FHFA's Deputy Director of the Division of Research and Statistics. "House prices increased by 1.0 percent in January, which is relatively still high, but represents the smallest month-over-month gain since June 2020."

The FHFA HPI is the nation's only collection of public, freely available house price indexes that measure changes in single-family home values based on data from all 50 states and over 400 American cities that extend back to the mid-1970s. The FHFA HPI incorporates tens of millions of home sales and offers insights about house price fluctuations at the national, census division, state, metro area, county, ZIP code, and census tract levels. FHFA uses a fully transparent methodology based upon a weighted, repeat-sales statistical technique to analyze house price transaction data.

FHFA releases HPI data and reports on a quarterly and monthly basis. The flagship FHFA HPI uses seasonally adjusted, purchase-only data from Fannie Mae and Freddie Mac. Additional indexes use other data including refinances, FHA mortgages, and real property records. All the indexes, including their historic values, and information about future HPI release dates are available on FHFA's website: <u>https://www.fhfa.gov/HPI</u>.

FHFA will release its next HPI report on April 27, 2021 with monthly data through February 2021.

The Federal Housing Finance Agency regulates Fannie Mae, Freddie Mac and the 11 Federal Home Loan Banks. These government-sponsored enterprises provide more than \$6.7 trillion in funding for the U.S. mortgage markets and financial institutions.

Further background information

An overview of the FHFA HPI

The FHFA House Price Index[®] (FHFA HPI[®]) is a broad economic measure of the movement of singlefamily house prices in the United States. The production of the FHFA HPI is statutorily mandated (12 U.S.C. 4542) but it began in 1995 with one of FHFA's predecessor agencies, the Office of the Federal Housing Enterprise Oversight (OFHEO). The initial reports contained information about regional and national house price movements. Sample coverage has expanded with better access to new data sources and technological improvements for processing such information. Today, indexes cover all 50 states and over 400 American cities while extending back to the mid-1970s.

FHFA constructs several indexes for different market geographies and periods. The entire suite of indexes is often referenced, in a general sense, as the "FHFA HPI" to reflect that all indexes are created in the same technical manner. The flagship FHFA HPI is the purchase-only index which uses seasonally adjusted, purchase-only data; the index is the most common choice for press releases, news stories, and social media. Additional indexes have been created to address questions about house price changes in other market segments like with refinances, FHA mortgages, or the entire single-family property market. Data constraints preclude the production of some kinds of indexes in certain geographic areas, but multiple index types (flavors) are generally available. Quarterly reports usually contain index flavors such as:

- "Purchase-Only" HPI: Tracks changes in transaction prices for conforming, conventional mortgages that are purchased or securitized.
- "All-Transactions" HPI: Appraisal values from refinance mortgages are added to the Purchase-Only HPI data sample.
- "Expanded-Data" HPI: Sales price information sourced from county recorder offices and from FHA-backed mortgages are added to the Purchase-Only HPI data sample. This index is used to adjust the conforming loan limits, which establish the dollar amount of loans that can be acquired by Fannie Mae and Freddie Mac
- "Distress-Free" HPI: Sales of bank-owned properties and short sales are removed from the Purchase-Only dataset prior to estimation of the index.
- "Annual" HPI. Uses the All-Transactions data but indexes are constructed on a yearly basis to provide data for very small geographic areas like counties, ZIP codes, and census tracts.

	National	Census Division	States	MSAs or Cities	ZIP3, Non-metro	ZIP Codes	Counties	Census Tracts
Monthly	\checkmark	~						
Quarterly	\checkmark	\checkmark	\checkmark	\checkmark	✓			
Annual	\checkmark	\checkmark	\checkmark	\checkmark	✓	\checkmark	\checkmark	~

The summary table below details the frequency and geography of the available indexes.

The FHFA HPI suite is built on tens of millions of home sales and offers insights about house price fluctuations at various geographic levels. For more information, see the HPI Frequently Asked Questions, available online at <u>https://www.fhfa.gov/Media/PublicAffairs/Pages/House-Price-Index-Frequently-Asked-Questions.aspx</u>.

FHFA HPI Release Dates for 2021

Public releases occur at 9AM ET and include a press release, tables, figures, and associated data.

Date	Release Type	Latest Included Data
Tuesday, January 26	Monthly Index	November 2020
Tuesday, February 23	Quarterly Index (with Monthly Tables)	Dec. 2020 and 2020Q4
Tuesday, March 30	Monthly Index	January 2021
Tuesday, April 27	Monthly Index	February 2021
Tuesday, May 25	Quarterly Index (with Monthly Tables)	March 2021 and 2021Q1
Tuesday, June 29	Monthly Index	April 2021
Tuesday, July 27	Monthly Index	May 2021
Tuesday, August 31	Quarterly Index (with Monthly Tables)	June 2021 and 2021Q2
Tuesday, September 28	Monthly Index	July 2021
Tuesday, October 26	Monthly Index	August 2021
Tuesday, November 30	Quarterly Index (with Monthly Tables)	Sept. 2021 and 2021Q3
Tuesday, December 28	Monthly Index	October 2021

All data are freely available for download from the FHFA HPI website at
