Effective November 1, 2006

General Instructions

CRS Release 3.0

A. Changes effective with the release of CRS.net Release 3.0

Effective with the release of CRS Release 3.0 in November, 2006, the Finance Board Call Report System (CRS) will begin capturing certain required elements directly from the Federal Home Loan Bank Office of Finance (OF) Financial Reporting System (FRS). At that time, line item and batch load instructions for elements that will be obtained directly from FRS should be obtained from the Office of Finance. For elements reported directly to CRS, line item and submission instructions are included as part of these general instructions and as part of the Data Reporting Manual chapter for CRS.

B. Scope of these Instructions

Each Bank shall prepare the Call Report in accordance with these instructions. These instructions apply to the data elements contained in the monthly and quarterly CRS schedules. They shall apply to elements reported *directly* to the Finance Board Call Report System by the Banks, unless otherwise herein indicated. Instructions and guidance for submission of information to FRS will be provided by the Office of Finance.

C. Data and Frequency of Reporting

Each Federal Home Loan Bank (Bank) must file a Call Report as of the end of each month and each calendar quarter and on any other date specified by the Finance Board (each such date being the Reporting Date).

D. Monthly Call Report Reporting Dates

All Monthly Call Report Schedules, with the exception of Schedules CC and NPA (see below), and regardless of whether submitted directly to CRS or through FRS, are due on the fifteenth (15th) calendar day of the month; or on the next business day thereafter if the due date falls on a weekend or holiday; following the month-end for which the information is being reported. For example, a call report for March would be due on April 15th or the next business day if April 15th falls on a weekend or holiday.

Schedule CC (Capital Compliance Schedule)

Schedule NPA (Negative Pledged Assets Schedule)

Per 12 CFR 932.7, the Capital Compliance report is due 15 business days following the month-end for which the information is being reported. The same date shall apply to elements reported monthly on the Negative Pledged Assets Schedule. These Schedules are submitted to CRS directly and do not go through FRS.

E. Quarterly Call Report Reporting Dates

All Quarterly Call Report Schedules are due on the twentieth (20th) calendar day of the month; or on the next business day thereafter if the due date falls on a weekend or holiday; following the end of the quarter for which the information is being reported. For example, the Call Report schedules for the second quarter would be on July 20th or on the next business day if July 20th falls on a weekend or holiday.

F. Quarterly “Plus 25” Call Reports

The Quarterly “Plus 25” (DOE) Call Report schedule was previously due on the twenty-fifth (25th) calendar day of each month. All quarterly elements are now due as per Section *E* above on the 20th calendar day of the month following the end of the quarter for which the information is being reported.

G. Line Item Directions

For elements reported directly to CRS, the accompanying line item instructions shall apply. For elements reported to FRS, FRS line item instructions shall apply unless otherwise indicated in the CRS instructions.

H. Applicability of Generally Accepted Accounting Principles

The Call Report shall be prepared in accordance with Generally Accepted Accounting Principles, except to the extent otherwise directed by the Finance Board either in these instructions, in Finance Board regulations, or in other guidance which may be formally provided.

I. Rounding

For schedules or elements reported directly to the Finance Board Call Report System, numeric reporting should be reported to two decimal places. Reporting of amounts to the right of the decimal point are optional. Amounts to the left of the decimal may be rounded to the nearest dollar but the rounding of values is otherwise not permitted.

J. Applicability of Capital (CC) and Leverage (LEV) Call Report Schedules

Each Bank should begin completing the monthly Capital Compliance (CC) schedule of the Call Report once it begins operating under its capital plan. With respect to Supplemental Capital Information, note that only two lines (SCP1000 and SCP2000) apply to Banks that are not yet operating under their capital plans. For the Leverage Schedule (LEV), only Banks that are not yet operating under a capital plan are required to complete the information in this report.

K. Submission of Call Report Information Directly to CRS by the FHLBanks

For CRS schedules and elements reported directly to CRS, each Bank shall submit its Call Report in its entirety and electronically; either by the internet interface provided by the Finance Board or by a batch load using a file format provided as an attachment to these instructions.

Inaccurate, incomplete, or incorrectly formatted Call Reports will not be considered as timely or accurate and must be corrected and resubmitted.

L. Submission of Call Report Information to CRS through the Office of Finance FRS System.

For CRS schedules and elements provided to CRS directly from FRS, each Bank will submit and lock its information in its entirety in FRS before the close of business on the reporting date as per Sections *D* and *E* above. After the close of business on each reporting due date, the Finance Board will retrieve data from FRS.

M. Declaration and Signatures for Submissions to CRS

All Call Report information submitted directly to CRS, including amended Call Reports, shall be submitted by a senior officer or by a Bank employee to whom authority has been delegated by a senior officer. The act of submitting a call report is deemed by the Finance Board as an attestation by the senior officer that the Call Report is true and correct to the best of his or her knowledge and belief. The authority to submit Call Reports may only be granted by the Finance Board, the request for which must come from a Bank's Chief Executive Officer or Chief Financial Officer.

N. Certification of Call Report Information obtained from the OF FRS System.

The use of FRS to file Finance Board Call Report data is provided to the Banks as a convenience. Consequently, data obtained from FRS will be treated for supervisory purposes as being true and correct on each reporting date as though filed directly with the Finance Board under section *M* of these instructions.

O. Criteria for Considering a Call Report Submitted

A Call Report for a given period will not be considered submitted to CRS until all required information has been submitted to FRS and CRS and the senior Bank officer responsible for submitting information to the Finance Board has done so using the CRS *submit* function.

P. Verification

Before submitting the Call Report to the Finance Board, each Bank shall ensure that it has prepared an appropriate record or records for each table relevant to a particular item as specified in these instructions; that it has populated every field with Bank data, an allowed default value, or other permitted value as specified in these instructions; and that data values fall within the allowable ranges specified in the CRS line item instructions or other guidance.

Q. Supporting Records

Each Bank shall maintain its financial records in a manner and with sufficient scope to ensure that each Call Report is prepared and filed in accordance with these instructions and accurately reflects the Bank's assets, liabilities, off-balance sheet items, and operations.

R. Restatement and Correction

When restatement of previous Call Report schedules is required, for reasons including but not limited to errors, omissions, or changes in prevailing accounting treatments; each affected Bank shall restate *all* affected schedules using actual (i.e. not estimated) numbers for a period not less than the greater of two full calendar years or a period specified by the Bank's independent auditors. Any waivers to this requirement, including those requested due to reasons of immateriality, will require approval by the Finance Board. All such restated schedules shall be submitted no later than three business days after the date of such adjustments to the Bank's financial reporting systems or records unless otherwise agreed to by the Finance Board.

S. Modifications to these Instructions

For the purpose of combining individual Bank requests for changes/additions/deletions to Call Report line items, such requests should be sent to the Chairman of the Bank Controllers' CRS Subcommittee. If that subcommittee deems the request appropriate and warranted, the Chairman of that subcommittee will forward the request to the Finance Board for consideration.

T. Attachments to these Instructions

Accompanying these instructions are the following attachments:

- Attachment One: FRS Import XML Schema
- Attachment Two: Sample FRS XML Import File
- Attachment Three: Sample FHLBank Monthly Import File (CSV)
- Attachment Four: Sample FHLBank Quarterly Import File (CSV)

U. Finance Board Points of Contact

CRS contains a Help button that provides assistance with basic operational questions. For problems with the application or for assistance with operational and technical questions that cannot be answered with online help, please call or email the Finance Board Help Desk: (202) 408-2907 or helpdesk@fhfb.gov.

For assistance with CRS accounts and report submissions, revocations and rejections, please contact Ed Avila, CRS Administrator at avilae@fhfb.gov.

For financial and accounting questions about line items within the Call Report, please send an email to David Poston, Finance Board Chief Accountant at postond@fhfb.gov with a cc to Ed Avila, CRS Administrator at the email address above.

CRS Name		Description	Line Item Instructions
CC1000		Credit risk charges - Advances	The Finance Board regulations detail the credit risk capital requirement, paraphrasing: 12 CFR 932.4(a): General requirement. Each Bank's credit risk capital requirement is equal to the sum of the Bank's credit risk capital charges for all assets, off-balance sheet items and derivative contracts. 12 CFR 932.4(b): Credit risk capital charge for assets. Except as provided in paragraph (i) of this regulation, each Bank's credit risk capital charge for an asset is equal to the book value of the asset multiplied by the credit risk percentage requirement assigned to that asset pursuant to paragraph (e)(2) of this regulation. For Advances
CC1100		Credit risk charges - Mortgage backed securities	Same as above for Mortgage backed securities
CC1200		Credit risk charges - Other investments (including fed. funds, deposits and repos)	Same as CC1000 for Other investments (including fed. funds, deposits and repos)
CC1300		Credit risk charges - Mortgage loans	Same as CC1000 for Mortgage loans
CC1400		Credit risk charges - Derivatives	12 CFR 932.4(d)(1): Derivative contracts with non-member counterparties. Except as provided in paragraph 932.4(j), each Bank's credit risk capital charge for a specific derivative contract entered into between a Bank and a non-member institution should equal the sum specified in 932.4(j)(i) and (ii). 12 CFR 932.4(d)(2): Derivative contracts with a member. Except as provided in paragraph 932.4(j), the credit risk capital charge for any derivative contract entered into between a Bank and one of its member institutions should be calculated in accordance with paragraph 932.4(d)(1). However, the credit risk percentage requirements used in the calculations are shown in Table 1.1 of this regulation, which sets forth the credit risk percentage requirements for advances.
CC1500		Credit risk charges - Other assets	Same as CC1000 for Other assets

				Minimum Liquidity Requirement per Title 12, Part 932.8
				In addition to meeting the deposit liquidity requirements contained
				in §965.3 of this chapter, each Bank shall hold contingency
				liquidity in an amount sufficient to enable the Bank to meet its
				liquidity needs, which shall, at a minimum, cover five business
				days of inability to access the consolidated obligation debt
				markets. An asset that has been pledged under a repurchase
				agreement cannot be used to satisfy minimum liquidity
				requirements.
